

# Connect Once. Enable Crypto Everywhere. Launch in Days.

---

*sFOX Connect is a state-of-the-art crypto infrastructure layer that allows businesses to launch, manage, and scale digital asset services in days—not months—without rebuilding systems or hiring specialized teams.*

## The Challenge Every Enterprise Faces

Fintechs, banks, custodians, payment providers, asset managers, and institutions all face the same challenge: crypto demand is real, but building crypto infrastructure is complex, expensive, and risky. Fragmented vendor landscape, regulatory uncertainty, and operational overhead slow time-to-market and limit growth.

### sFOX Connect removes that friction.

It delivers a unified, enterprise-grade foundation for crypto trading, custody, compliance, banking, and monetization through a single integration that fits with how your business already operates.

## Complete Crypto Infrastructure. One Connection.

sFOX Connect brings together all the core capabilities required to enable crypto responsibly and at scale.

### Market Access & Execution

sFOX Connect brings together all the core capabilities required to enable crypto responsibly and at scale.

### Secure, Regulated Custody

Protect digital assets within regulated custody frameworks while supporting active trading and product expansion.

Wyoming Trust-regulated custody

SOC 2-aligned controls and operational safeguards

Bankruptcy-remote asset protection

Ability to trade directly from custody

Transparent pricing and centralized execution

Smart routing is designed to reduce slippage and market impact

Built for consistent performance across market conditions

## Compliance & Automated Onboarding

Instead of an afterthought, compliance is embedded directly into the infrastructure:

- Automated KYC, KYB, AML, and sanctions screening
- Global onboarding across supported jurisdictions
- Audit-ready reporting and controls

## Global Banking & Payments Rails

Move funds seamlessly between fiat and crypto with built-in banking connectivity.

- Global fiat on- and off-ramps
- Streamlined crypto-to-fiat and fiat-to-crypto flows
- Designed to support global use cases

## Expandable Crypto Capabilities

Launch what you need today and expand over time as your strategy evolves.

- Trading and wallets
- Staking and payments
- Comprehensive reporting and reconciliation

## Connect Your Vision to the Digital Asset Market

sFOX Connect provides the flexible infrastructure to turn your crypto ambitions into reality.

By handling the complex crypto infrastructure in the background, sFOX Connect enables you to focus on your core business and unique customer value proposition.

Popular use cases of the infrastructure are explained below:

**Institutional Trading & Wealth:** Build custom trading desks, prime brokerage services, or automated wealth management platforms.

**Global Payments, Banking & Lending:** Enable borderless stablecoin settlements, crypto-backed lending, real-time B2B invoicing, and fiat-to-crypto on-ramps.

**Digital Asset Safekeeping:** Deploy institutional-grade custody solutions and staking infrastructure without the technical overhead.

**Next-Gen Commerce:** Power crypto rewards programs, NFT marketplaces, and corporate treasury operations.

# sFOX Connect vs Alternatives

Whether you're a bank extending digital asset services, a fintech embedding crypto capabilities, or an asset manager accessing institutional-grade execution, sFOX Connect delivers the infrastructure you need to compete in digital assets while maintaining full control over your brand and customer experience.

	sFOX Connect	In-House Builds	Point Solutions
<b>Time to Market</b>	In as little as 3 days	6-12 months	3-6 months
<b>Integration Complexity</b>	Single API Suite	Complex rebuild	Multiple vendors
<b>Regulatory Compliance</b>	Integrated	Build from scratch	Fragmented approach
<b>Ongoing Maintenance</b>	Managed for you	Full engineering team	Several relationships

## A Partnership — Not Just Infrastructure

Since 2014, sFOX has powered institutional crypto trading and liquidity across multiple market cycles. sFOX Connect extends that proven foundation to businesses looking to enable crypto responsibly and at scale.

**Fast time to market using your existing tech stack**

**Customizable fee schedules and revenue control**

**Built-in compliance backed by years of regulatory experience**

**Concierge support and expert consulting**

**Infrastructure trusted by hundreds of institutional clients**

Integration is just the beginning. sFOX partners with you to ensure long-term success as crypto markets, regulations, and opportunities evolve.

**One Connection. Unlimited Potential.**

Whether launching crypto trading, enabling payments, supporting custody, or building entirely new digital asset products, sFOX Connect adapts to your business, not the other way around.

Ready to turn crypto complexity into a competitive advantage?

Let's connect your platform to crypto — **the right way.**
